Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136 (a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371© of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

2. Claims 1-11 are rejected under 35 U.S.C. 102(e) as being anticipated by Val et al. The reference to Val shows all of the claimed structural features of the invention. For example, FIG. 10 of Val shows a semiconductor device with two faces having an insulating coating (33), covering one face, and a heat sink layer (31) covering the opposite face.

Val also teaches the use of the same materials as claimed by applicant, such as polyimide insulating layers, and a copper heat sink layer. Furthermore, Val also teaches the use of the same

Art Unit: 2503

dimensions for these layers, as are claimed by applicant. For example, in col. 3, l. 59-63, Val teaches using copper layers with a thickness between 5 and 150 microns, which meets the limitations of applicant's claim 4. Val also teaches in col. 3, l. 5-8 that the insulating polyimide coating may be as thin as 0.05 mm which would fall within the range of thicknesses recited by applicant in claim 9.

As also seen in Fig. 10 of Val, the heat sink and protective coating are of equal area, as recited in applicant's claim 2. In addition, Val's teaching and the example given for the composition of the protective coating would encompass the use of such standard polymer materials as SU8.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Edward Wojciechowicz, whose telephone number is (703) 308-4898, or to SPE Eddie Lee whose number is 703-308-1690.
